

DSH Foam Dock Seal with Head Curtain

Product Specifications

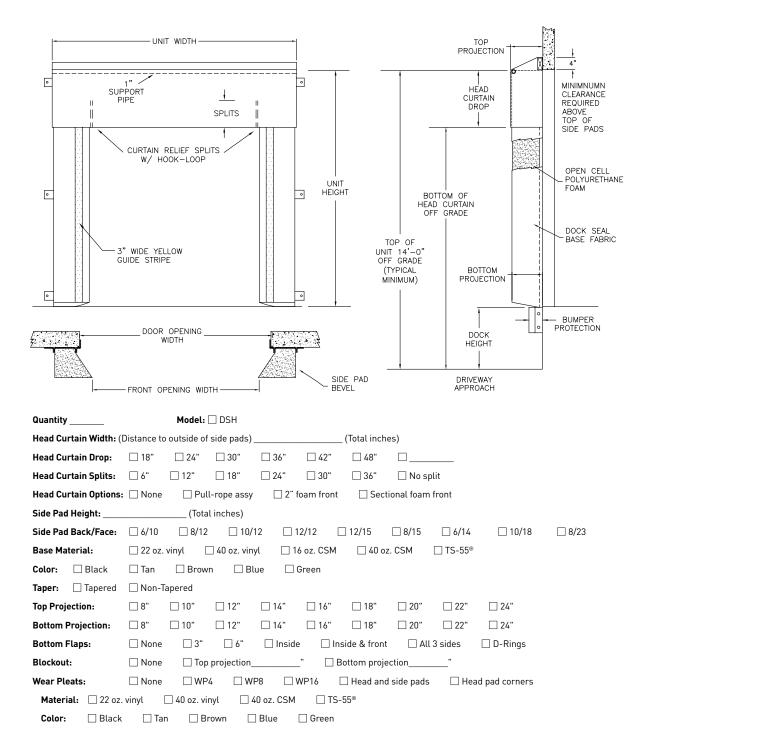

DESIGN HIGHLIGHTS

- Top of hood is tapered forward and securely fastened to the building wall
- Tapered top is supported with thick wall aluminum pipe
- Fiberglass stays add stiffness to hood top to prevent sagging
- Hood curtain splits offer load relief and higher clearance
- Roll-formed galvanized steel framing reduces pressure on building wall, warrated for 5 years
- Endurance tested foam core is continuously bonded to frame surface with flexible, non-flammable adhesive
- A wide selection of durable coated fabrics provide maximum durability
- Highly resilient, open-celled polyurethane foam keeps original shape and compresses easily to extend seal life
- Side pad bottoms are tapered to avoid pinching and wear
- All pads are vented for air and moisture release
- Full length yellow stripes guide drivers to the dock
- Heavy-duty, galvanized steel mounting brackets included
